**Present Position and Duties:**

- Technical Hydrogeologist, Hydrology Section, Idaho Department of Water Resources (IDWR), 1990 – present. Current duties include assisting with the Idaho Statewide Ambient Ground Water Quality Monitoring Program (data interpretation and report writing), and providing geothermal technical expertise (analyzing monitoring data, writing technical reports, and assisting communities and citizens with geothermal development plans). Also serves as Water Master for Idaho Ground Water District 63-S (low temperature geothermal) from 2003 to present. Has published reports and other materials related to ground water quality and geothermal activities in Idaho. Has degrees from West Virginia University and the University of Idaho.
